8:00 am -5:30 pm (includes breakfast and lunch)

Free CMEs

Yuma, Arizona

Sponsored by:

Pacific AIDS Education & Training Center

California STD/HIV Prevention Training Center

Francis J. Curry National Tuberculosis Center

Pacific Southwest Addiction Technology Transfer Center

US/Mexico Border Health Commission

Yuma Regional Medical Center

At the end of the 2-day symposium, participants will be able to:

- Discuss the latest trends and treatments for TB, STDs, HIV, Hepatitis C and Substance Abuse as well as treatment and referral options in Mexico.
- Review the relationship and examine the impact and needs of these epidemics locally and binationally.
- Develop clinical knowledge and skills to better treat and refer clients with a focus on keeping patients in care despite current---and potential---budget and staffing cuts.
- Obtain testing and treatment directories and share local and cross-border resources and referral networks.

This free, two-day continuing education workshop is available to physicians, physician assistants, nurse practitioners, nurses, and other providers serving impacted patient populations in the region.

Enrollment is limited!

For an application brochure, please contact

Joel Peisinger at (310) 794-2932 or send an email to jpeisinger@mednet.ucla.edu
