Who Should Take This Course?

Physicians, Advanced Practice Nurses, and Physician Assistants in public and private settings, as well as clinicians involved in STD control and prevention programs.

Course Faculty:

Sharon Adler, MD, MPH;

Heidi Bauer, MD, MS, MPH;

Melanie Taylor, MD, MPH

LEARN ABOUT: •Diagnosis & management of syphilis •Syphilis in special populations •STD/HIV prevention •Local & State STD epidemiology & public health perspectives •Chlamydia & gonorrhea •Case studies •HSV & HPV •Sexual History taking •Expedited partner therapy

ACHIEVE THESE OBJECTIVES:

- ✓ Describe **current epidemiology of common reportable STDs** (syphilis, chlamydia & gonorrhea) in Arizona.
- ✓ Describe **diagnostic & management strategies for syphilis** and outline **decision algorithms** for evaluating patients with a positive serologic test for syphilis.
- ✓ Discuss **treatment of gonorrhea & chlamydia**, and **suppressive & episodic treatment options** for patients with HSV.
- ✓ Determine the correct use for **high-risk HPV DNA tests**.
- ✓ Identify appropriate patients & medications for expedited partner therapy.

STD UPDATE: EMPHASIS ON SYPHILIS covers epidemiology, diagnosis, treatment, and management of STDs for the practicing clinician. Includes sexual history-taking and syphilis case discussions. This day-long course is presented in an interactive format & incorporates case discussions.
